

GReEN Team
Group Meeting 7
Tuesday, November 12th, 2013

Agenda

- Compile SRS corrections
- Discuss ideas for prototype
- Get Rebecca's website
- SRS v2 and Prototype v2 due Nov. 18th
- Look at E-mail from customer

Meeting Minutes

Meeting started at 5:41 PM
Members present - Garret, Eric, Nik, Rebecca

Get SRS corrections done and emailed to Garret by Thursday

Prototype

Compute the data and display it in a table, every 100ms (every time a packet is sent) put variables in a new row of the table.

We will check the hit box in front of the vehicle every 100ms, and if the pedestrian coordinates are within the hit box, then we will decelerate the vehicle.

Tables should contain rows for:

Total time, Vehicle velocity, Vehicle X, Vehicle Y, Pedestrian velocity, Pedestrian Y

Plan to meet up sometime this weekend to work on prototype, and go over SRS again.

Meet on Thursday at 5:30 PM

Meet if we need to on Sunday night

Meeting concluded at 6:08 PM
